Hodder Education/Viva Books Private Limited, 2010. Softcover. Book Condition: New. Description: Written specially for students following the International Baccalaureate (IB) Diploma, Chemistry for the IB Diploma is a major new textbook covering the latest syllabus requirements for this experimental science. Chapters are presented in syllabus order and provide full coverage of all core Topics and Options for students at both Standard and Higher levels. ? Chapters open with a list of ?Starting points? and conclude with a summary of knowledge required for the IB Chemistry Diploma. ? Simple language and clear, detailed explanations (including worked examples) are used throughout. ? Text is written to follow syllabus terminology, spellings and conventions. ? Material for Standard level and Higher level is clearly identified. ? Applications of chemistry, Theory of Knowledge (TOK), history of chemistry, language of chemistry and internationalism are fully covered. ? Examination questions are included at the end of each chapter. ? A full glossary of terms provides an invaluable reference for students. Within the IB Diploma programme, the theory content for chemistry is organised into compulsory core topics and options. The organization of this book exactly follows that syllabus sequence: Section 1 is the common core material for Standard and Higher Level Students: Chapters 1-11 Section 2 is the additional higher level material for Higher Level students: Chapters 12-20 Section 3 consists of the seven options: A to G, covered in Chapters 21-27. All the options are available to both Standard and Higher Level students. Contents: Section 1: Standard level and higher level: Chapter 1 Quantitative chemistry ? Fundamental concepts of chemistry ? The mole concept and Avogadro?s constant ? Formulas ? Chemical equations ? Mass and gaseous volume relationships in chemical reactions ? Solutions ? Chapter 2 Atomic structure ? The atom ? The mass spectrometer ? Electron...
