

Automorphisms of Manifolds and Algebraic K-Theory: Part III

By Michael S. Weiss, Bruce E. Williams

American Mathematical Society. Paperback. Book Condition: new. BRAND NEW, Automorphisms of Manifolds and Algebraic K-Theory: Part III, Michael S. Weiss, Bruce E. Williams, The structure space $\mathcal{M}$ of a closed topological m -manifold M classifies bundles whose fibers are closed m -manifolds equipped with a homotopy equivalence to M . The authors construct a highly connected map from $\mathcal{M}$ to a concoction of algebraic L-theory and algebraic K-theory spaces associated with M . The construction refines the well-known surgery theoretic analysis of the block structure space of M in terms of L-theory.
