AQUAPONICS: REINVENTING THE CIRCLE OF LIFE (PAPERBACK)

Createspace, United States, 2014. Paperback. Book Condition: New. 229 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.Combining the powerful benefits of hydroponic gardening and aquaculture comes a revolutionary way of growing plants and fishes in one symbiotic environment: aquaponics. Aquaponics is not a new concept: plants and fish have always grown and thrived successfully in the same habitat for years! However, in the face of economic turmoil, people are finding real ways and means for sustainability and self-sufficiency, therefore driving them to create a system that allows them to grow plants and animals in the same spot, right at their backyards! You can have your own aquaponic system too! Aquaponic Gardening: Reinventing the Circle of Life was designed, written and published to give you the most essential information in creating your own aquaponic garden. Whether or not you've had experience growing plants and growing fish, doing it together in one habitat where fish and vegetables mutually benefit from each other is fun and rewarding! This book will walk you through the basics of starting an aquaponic system: right from choosing an ideal location and environment and creating the garden design. It also details how you can integrate the lives of plants and fish in one setting, as well as provide you a deeper understanding of how this small ecosystem works towards sustainability and self-sufficiency. Aquaponic Gardening: Reinventing the Circle of Life is definitely what you need if you're trying an aquaponic garden for the first time or seeking updated information on how to improve your already existing garden.
